Incorporate Implant Dentistry Successfully In Your Practice, with Implant Mentoring I

Live Surgery by Attending Doctors!

This course is the beginning of the journey - an opportunity to learn about implant dentistry and immediately put it to use on a live patient with an experienced mentor who will assist you from pre-surgery work-up through the actual procedure. Spend two pre-surgery days learning strategies about safe and predictable implant placement, then participate in a live patient surgical procedure on day three.

"This is the best course that I have taken in my 25 year career. I wish I had this knowledge years ago, there's nothing like it!"
- Robert Simmons, DDS, Greensburg, KY

Narrow diameter **Legacy™3** implants and custom cast abutments replace congenitally missing laterals
