Zest Anchor Journal

WARNING: Some advertisements may be hazardous to your practice.

Implant Direct Sybron's GPS™ Overdenture Abutments have been targeted in [Zest Anchor Company's recent journal advertisements](#), demonstrating that compatible attachments offering significant cost savings are a threat to Zest's dominant position in the overdenture attachment market. Discover the full story on GPS™ below.

Zirconia Abutments on Titanium Bases for Esthetics and Strength

The titanium base is anodized gold to mask the grey color & can be used in the fabrication of cad-milled custom abutments. The stock abutments, provided assembled, are offered in 0°, 8° & 15° angulations with contoured margin collars of 1mm & 2mm heights. The Zirconia can be modified intra-orally with diamond burs, providing the benefits of custom zirconia abutments for a fraction of the cost. [View PDF File](#)
