# Implant Dentistry 101

## For GPs, By GPs

At the new Implant Direct Educational Center in

"We know implant dentistry can seem daunting. We've been there.

That's why we decided to develop a course especially for general practitioners; taught by general practitioners. We'll cover treatment planning for single and multiple tooth replacement procedures, the basics of implant surgery and prosthetic selection as well as the role of bone augmentation. These three days of lecture and hands-on will leave you with a clear understanding of how implant dentistry fits into your practice."

#### Schedule:

June 1-3
