Gerald Niznick DMD, MSD

now ...

Chairman of the Board of Directors at Acromil Aer...

You say with regard to the NobelActive, "there is nothing I would change about it." How about its \$498 price (Cover Screw is \$58 additional). Would you not want to at least change the price or are they giving you a 50% discount for your unabashed endorsement? In creating the InterActive Implant, I found a number of features I could change to improve its design and strengthen the implant, especially important with small diameter implants that you point out are so useful. After watching this video, ask your Nobel rep. to justify NobelActive's 65% higher price now that Implant Direct is a division of NobelBiocare. https://youtu.be/SpON0vK7_d4

True Advantage - InterActive vs NobelActive
