Attending ICOI Winter Symposium in San Diego? Don't miss Dr. Niznick's Pre-Symposium Course "Simply Smarter" Implantology for 2012 and Beyond

Technological advances and recent economic factors have shifted the implant industry toward affordable care. This lecture will explore the evolution of implant designs, separating fact from fiction, and will mark the launch of a new InterActive™ generation of implants with All-in-1 Packaging that provides the accuracy of an open tray transfer with the simplicity of a closed tray transfer. Other treatment options to be discussed using slides, 3-D graphics and surgical videos include immediate replacement of a single lower molar to a variety of affordable treatment options for edentulous patients with application-specific, 1-piece implants.

- Utilizing the latest innovations to meet patient's financial needs without compromising clinical success
- Minimizing bone grafting in compromised implant sites
- Mastering treatment of the fully edentulous arch

February 16, 2012
Hilton San Diego Bayfront
Cobalt 520 Room

Continental Breakfast
Pre-Symposium Course: 8:00-12:00 noon
Course Fee: Gratis
